

[illegible][illegible]

```
package com.walid.khan.groovy

class RegularMatch implements Runnable {
    @Override
    public void run() {
        String name = Thread.currentThread().getName();
        System.out.println("has taken the thread in Regular Match");
    }
}
```

```
public class ThreadLocalTest {
    public static void main(String[] args) {
        ThreadLocal<Integer> t = new ThreadLocal<Integer>() {
            @Override
            public Integer get() {
                return 1;
            }
        };
        Thread t1 = new Thread() {
            @Override
            public void run() {
                System.out.println(t1.getName() + " : " + t.get());
            }
        };
        Thread t2 = new Thread() {
            @Override
            public void run() {
                System.out.println(t2.getName() + " : " + t.get());
            }
        };
        t1.start();
        t2.start();
    }
}
```
